## 2021 Collection

Jettribe has seen many changes over the past 25 years, but our mission remains the same. From our humble beginnings of selling products from the back of our car, to now multiple Jettribe locations around the world, we continue to design and manufacture premium PWC rider gear for watercraft enthusiasts and racers alike.

We do not know where the time has gone, but it has been an awesome journey. We are grateful for all the life-long friends we have made along the way, and all the cool places we have traveled throughout the world. The best is yet to come.

We are humbled and grateful for all of the continued loyal support from the watercraft community!

We can warm heartedly say that, we did not build Jettribe. Jettribe was built by our loyal riders that we call family.....

Gyorgy Kasza - I started racing jet skis in 2008 and then I decided I won't stop until I can stand next to the best racers of a world championship. In 2012 I won my first world titles at the World Finals in Runabout Slalom and Expert Runabout Open, but I didn't stop and I worked even harder to finally win the Pro Run Open and GP categories. 2016 was maybe my most successful year, when I won 5 categories in the Hungarian Championship, the Euro Tour in Belgium, the World Finals in the USA and the King's Cup in Thailand. I am not able to name a race I loved the most. I was racing for a decade almost every weekend, or at least every second weekend, so I am very lucky to gain lots of experiences and nice memories. However, I would not be able to achieve such success without all those people who support me: sponsors, mechanics, teammates, family, etc. Really a lot of great people stand next to me. The Jettribe team has been supporting me for 5 consecutive years and I am really happy to be part of the team. It feels like a big family, meeting people who love the same thing that I do. I hope I can make them proud in the future and continue our job together for a long time.

Ildikó Vásári- I was brought into the world of jet-ski racing by Gyorgy Kasza in 2012. He made me believe that I should start racing, and I have to admit he was right!

My most successful seasons were 2016, 2018, and 2020. In these years I won the Hungarian Championship, the Euro Tour or the Alpe Adria Tour. There were so many good races during these years, it is hard to pick 1 or 2. I love racing in Vir, Croatia. It is a beautiful location with good waves; but also the World Finals is a favorite place of mine :)

I am a lucky member of the Jettribe Team since 2016. They started supporting me before I achieved my biggest results, and that felt really good. With the Jettribe Team I had the chance to travel to Malaysia, and meet some lovely people there, but sometimes we have the chance to travel to other locations.

Jonathan Phan - Ski stock 2020 World Champion, Ski stock 2019 West Coast Champion, Mark Hahn 2018 ski Champion. I have been fortunate enough to have met Tony Vo and the entire staff at Jettribe. They have been with me since my first day of racing and they were the first company to usher me into the exciting world of watercraft racing. Having the support from Jettribe is much more than a wetsuit... It's being treated like family and being given an opportunity when many others would not. Thank you for picking me up off the beach many years ago but most importantly thank you for your support and friendship. Because of Jettribe's generosity and opportunities provided I am proud to say we are champions!

Ben Morris - 2017 Junior World Champs, 2019/20 New Zealand Series GP OPEN Class, 2019/20 New Zealand Nationals Pro lites and Runabout Rec lites

I have been with the Jettribe team since 2017 and I have enjoyed the support and encouragement from them. They have given me the opportunity to travel the world. In December 2019 I got the opportunity to ride for the Jettribe Team at the Thailand World Cup. The experience was awesome. Knowing when I wear my Jettribe wetsuits and riding gear I'm not only getting gear that looks great, but I know it is going to last. Thanks Jettribe for your ongoing support!

Erminio lantosaca - Jettribe is the best gear company there is! Not only does everything look great, it fits and works great as well. I started my journey with Jettribe in 2013 and never looked back. They have made me part of the family and I can't thank them enough. Together we have traveled the country and to Thailand. With Jettribe's help we have won 5 World Championships and 5 National titles.

Hidetomo Ochiah "Otchy" (Japan) - My best racing memory was the 2018 Kings Cup Pro / Am Runabout when I placed 3rd. I was more happy with the 3rd place in the world than my victories in Japan. I will be in GP class in the Thailand World Cup March 2021, so I am preparing the machine and myself so that I can make a leap forward. The middle of the podium is a very difficult position, but we will move forward without giving up! Let's make the challenge with Jettribe in the future!

Stian Schjetlein - 2020 UIM ABP Aquabike World Champion Pro Ski Gp1, 2nd place in Parallel Slalom, 6 World Championship titles, 4 European Championship titles total. I have been with Jettribe since 2013. The relationship with Jettribe has been really great for my career. Having a stable partner that I can always count on and that is really on my side in any and all matters is not something you find around just any corner. The warmth and love Jettribe has given me when I go to the USA and stop by the office for a little visit is not something you could ever expect elsewhere. I even brought a teammate that is partnered with a different brand to an office visit once, and she was overwhelmed and impressed by how much love there is within the Jettribe family. Having a good sponsor is great and all, but with Jettribe it is different. If I were to describe why in just three words, I guess I would have to go with: Family, Stability and Quality.

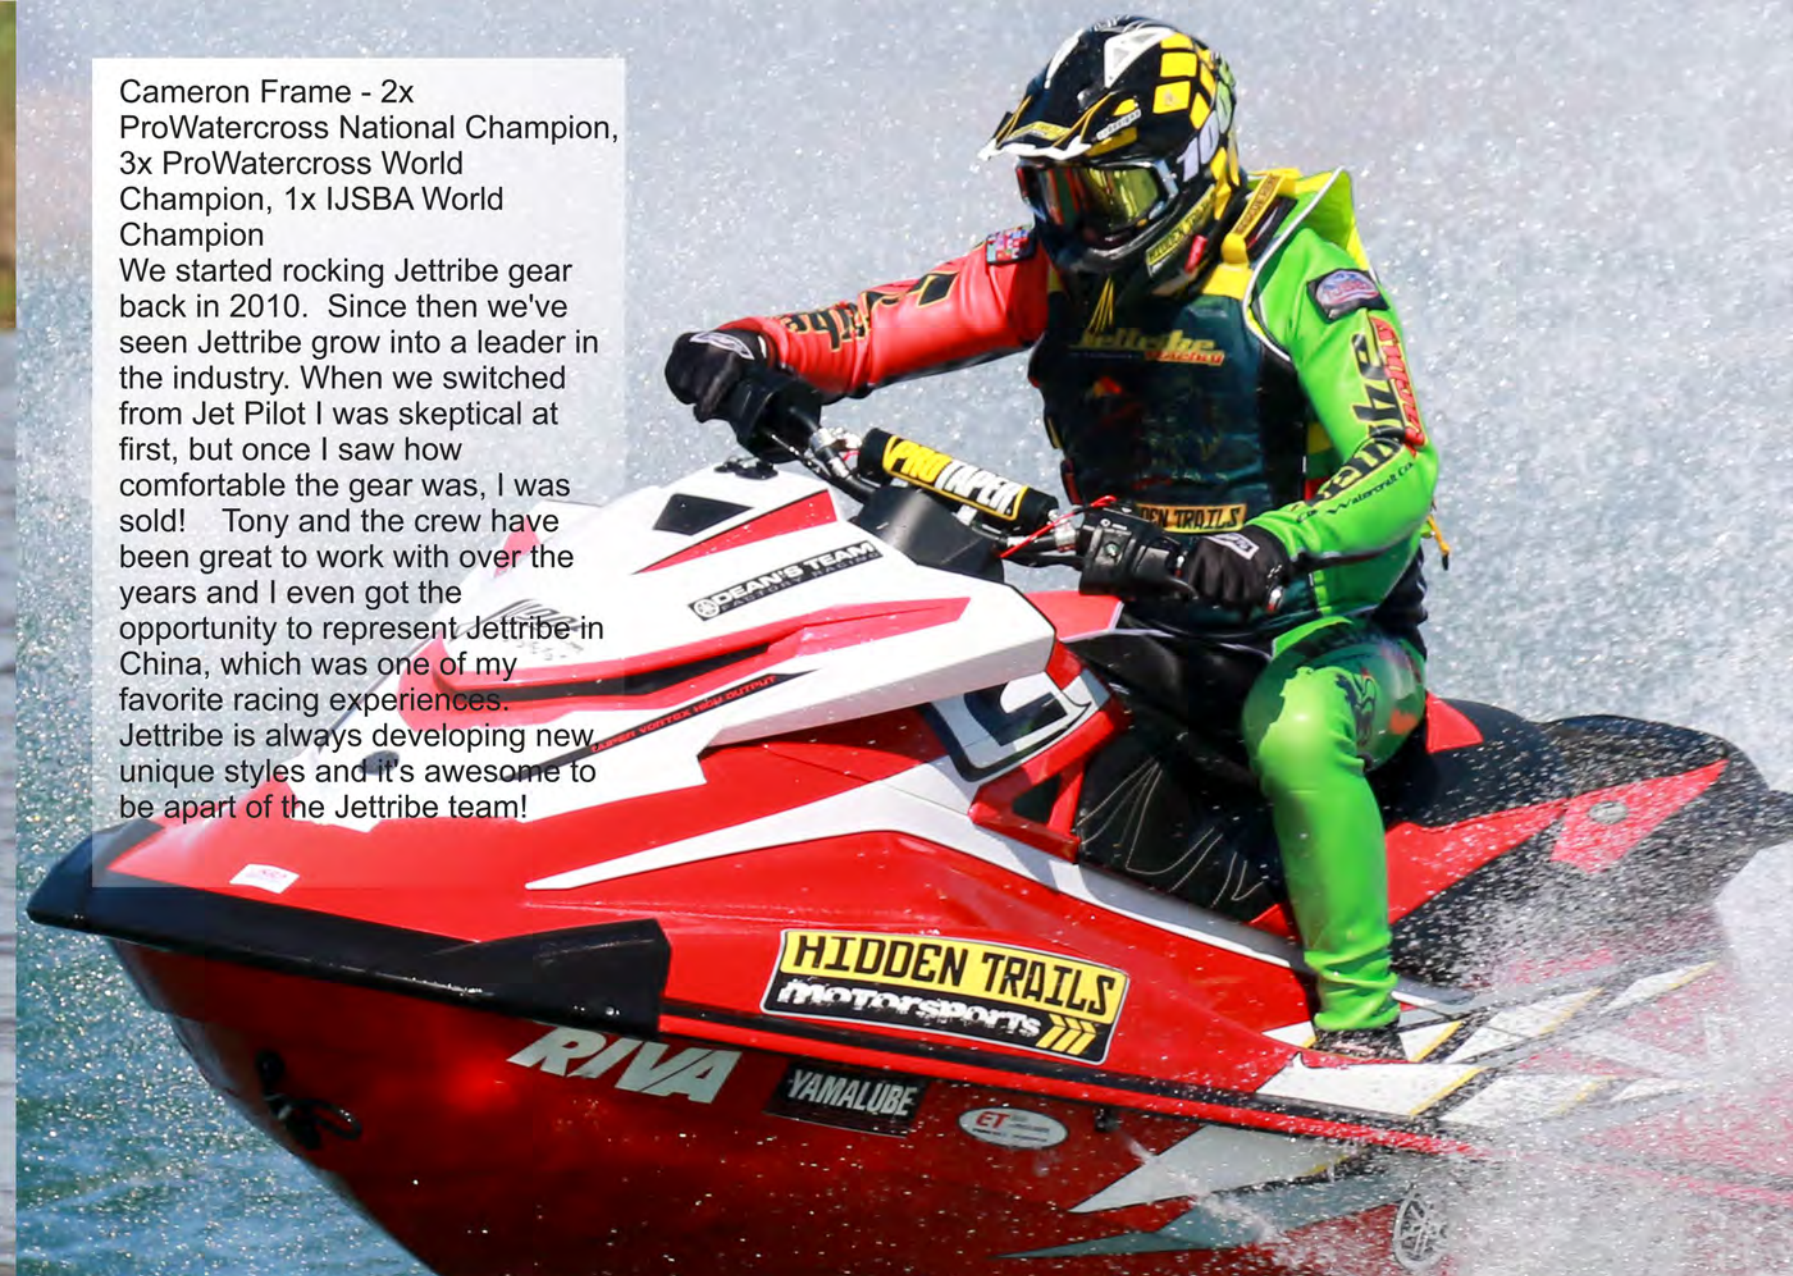

Bailey Cunningham - 8th Pro Runabout World Cup Thailand 2018, Winner National New Zealand Title, Winner Queensland Pro Runabout and Pro Enduro Titles in 2019. I have been with Jettribe for the past 2 years and it is fantastic to represent such a wonderful brand. Being part of the Jettribe family has given me the opportunity to meet and make many new friends from around the world.

07

Antony Torelli - World Champion 2014, French Champion 2008, 1 Time Winner Grand Prix Mohamed 6, 5 Time Regional Grand Est Champion. I have been part of the Jettribe family for 6 years now and have had huge memories with them. For me, Jettribe was more than wetsuits and equipment, it was the events and the sharing of the team all throughout. I have learned many lessons with their assistance.

Cameron Frame - 2x ProWatercross National Champion, 3x ProWatercross World Champion, 1x IJSBA World Champion. We started rocking Jettribe gear back in 2010. Since then we've seen Jettribe grow into a leader in the industry. When we switched from Jet Pilot I was skeptical at first, but once I saw how comfortable the gear was, I was sold! Tony and the crew have been great to work with over the years and I even got the opportunity to represent Jettribe in China, which was one of my favorite racing experiences. Jettribe is always developing new unique styles and it's awesome to be apart of the Jettribe team!

08

Trey Frame - 3x ProWatercross National Champion, 1x ProWatercross World Champion. Our team signed on to ride for Jettribe back in 2010. In 2009 I was starting to notice Jettribe gear and how much they were supporting the sport of Jet Skiing. After meeting with Tony Vo at a race in WV, we decided to make the switch and never looked back! Jettribe is truly a racers brand and we were able to work closely with Tony and the Jettribe design crew. We worked on some sport specific protective gear and even had the opportunity to design our "Blackstar Race Edition Wetsuit / Vest Combo". Tony and the Jettribe crew are always pushing the limit of style and function and I'm very proud to be a rider for Jettribe!

# HYBRID RIDE SUIT

09

10

New 2021 Team Rider Wetsuits - Sold as separate John & Jackets for the first time! Designed and engineered for the riders' maximum comfort, flexibility, warmth and mobility. "S-Tek" neoprene added for improved stretch and durability. Our wetsuits are built to stretch and move with a PWC rider.

### Hybrid Jacket Top

- New Hybrid Jacket with built-in hood for keeping warm between rides
- Ergonomic angled zipper. Easier pull with less stress on the suit.
- Jacket can be worn with a sleeveless wetsuit john, shorts, or swimwear to stay warm
- Dual Purpose cut, not as restricting as a traditional wetsuit top (vest is worn over the jacket)
- Not an oversized cut like a tour coat

### Sleeveless Wetsuit John

- 3mm neoprene with 2.5mm movement panels to help flex with a rider's movements
- Abrasion resistant wire mesh neoprene in the seating panel and knees
- All seams have an interlocking flat stitch to provide a watertight seal and maximum comfort against the skin
- Carefully selected neoprene for the right combination of thickness to retain a rider's body heat in various conditions

PRODUCT LINE	SIZE	MATERIAL
Hyper Wetsuits	S - 2XL	2/3 mm Jet Stretch Neoprene

- Built with 3mm panels for warmth and 2mm panels for high movement areas like the inner arms and legs
- Vivid and Bright Screenprinted Graphics
- All seams have our interlocking flat stitch to provide a watertight seal and maximum comfort against the skin
- Carefully selected neoprene for the right combination of thickness to retain a rider's body heat in various conditions
- Neoprene is a closed, high density foam made up of thousands of tiny air bubbles (cells) which provide an insulation barrier to slow down the conduction of heat
- John/Jacket Race Suits are engineered with the understanding that constant rider movement over-generates body heat while in water and open air, as opposed to surf wetsuits that are designed to always be in water
- Wire mesh neoprene knee panels for added strength

**Aero Aswar - Multiple World Championships.** Racing has been my passion from a very young age. The ups and downs are the key factors which make racing very priceless. The Jettribe family has always been very supportive through out my racing career. I got my first world title wearing Jettribe gear and I still remember when Jettribe was not as big as it is today. Jettribe may be a young brand compared to other similar competitors, but Jettribe has always pushed innovation by listening to their racers - and that's why I use Jettribe!

Racing is my life and my passion, not just my job. The Jettribe family has been such a big part of my journey throughout my racing career. With Jettribe, it takes me to another level of embracing the speed, the thrill, the fear, and the constant danger. I'm grateful to the significant contribution Jettribe gives to every single race win, especially my best win which was at the Asian Games. Jettribe has always been there from the beginning, and they have been loyal to me, so therefore I do the same to them.

**Kylie Ellmers** - My sponsorship came about from an amazing group of friends. The most important thing to me about my sponsorship is my friendship. I have never been interested in the money side of things. Being from the other side of the world, the best thing that can happen for me is to be able to turn up to a race meeting a long way from home and have friends I can rely on, that are willing to help me in any way they can. It's really hard for international riders to show up and be on the same playing field as local based riders with all their own resources. This is the essence of my sponsorship knowing that you have a team behind you, knowing there is someone to ask for help, knowing there is a pit site ready for you, knowing when things are tough you have people to talk to...this is how to succeed when you are starting from an outside position.

# RS-25P RACE VEST

Flexible Molded EVA Foam Internal Panels

Rescue Grab Handle

TPR 3-D Rubber Logo

Interchangeable Number Plate

3-Point Reinforcement

Jettribe 25th Anniversary Edition - RS-25P Side-Entry Impact Race Vest. Updated style and enhanced features make this vest excellent for closed course racing, offshore endurance racing, and naturally for recreation PWC riding as well. The most important feature is the built-in high density, EVA compression molded chest plate. The plate in the RS-25 offers more protection than traditional life vests to help reduce effects from chest impacts.

New 25th Anniversary Features Include:

- Upgraded Black Lanyard Attachment
- New Velcro Patch Strap Attachment
- Enhanced Customizable Back Plate
- 3-Point Strap Reinforcements

The new patch attachment lets you further customize the look of your vest. Add your country's flag or any cool patch design (patches sold separately). The updated customizable name plate stays secure with stronger velcro attachment points. Add customization for your Name and Race Number (sold separately).

As always our 4-inch EVA flexible foam panel is compressed to 2 inch thickness for maximum flotation. Webbing are tacked down with a zig-zag bar tack. Extra durable 420 Denier with Honey Comb weave outer material. Compatible with the Jettribe Back Deflector.

# UR-20P RACE VEST

25th Anniversary Edition - UR-20P Team Rider Side-Entry Life Vest. The main feature of a UR-20 Series Vest is the incorporated pre-molded foam in the front and back of the vest. Instead of forcing a flat piece of EVA foam to wrap around a rider's body, the pre-formed mold adds the ultimate in flexibility to conform to the rider's chest and back. The Jetribe UR-20P Side Entry Vest is an excellent all-around vest for free riding, freestyle, closed course racing, offshore endurance racing and naturally, for recreation PWC riding as well.

New 25th Anniversary Features Include:

- Upgraded Black Lanyard Loop Attachment
- New Velcro Patch Strap Attachment
- Enhanced Customizable Back Plate
- 3-Point Strap Reinforcement

The new patch attachment lets you further customize the look of your vest. Add your country's flag or any cool patch design (patches sold separately). The updated customizable name plate stays secure with stronger velcro attachment points. Add customization for your Name and Race Number (sold separately).

The UR-20P Side-Entry Vest utilizes ink fusion technology, instead of traditional silkscreen ink. The ink fusion wraps and dyes the color around the yarn and fibers of the materials. This allows for a smooth, soft, feel to the vest. Plus, our foam second process is heat and pressure compression, which allows us to take a 4-inch EVA foam panel and compress it down to a 2-inch thickness. This process allows for a lighter and more comfortable race vest with maximum flotation.

# LADIES VEST

Flexible Molded EVA Foam Internal Panels

Rescue Grab Handle

Interchangeable Lanyard Loop

39

25th Anniversary Edition UR-20P Ladies Team Rider Side-Entry Life Vest. The main feature of a UR-20 Series Vest is the incorporated pre-molded foam in the front and back of the vest. Instead of forcing a flat piece of EVA foam to wrap around a rider's body, the pre-formed mold adds the ultimate in flexibility to conform to the rider's chest and back.

New 25th Anniversary Features Include:

- Upgraded Black Lanyard Loop Attachment
- New Velcro Patch Strap Attachment
- Enhanced Customizable Back Plate
- Updated Styling to match our Team Rider Ladies Wetsuits

The new patch attachment lets you further customize the look of your vest. Add your country's flag or any cool patch design (patches sold separately). The updated customizable name plate stays secure with stronger velcro attachment points. Add customization for your Name and Race Number (sold separately).

The UR-20P Side-Entry Vest utilizes ink fusion technology, instead of traditional silkscreen ink. Plus, our foam second process is heat and pressure compression, which allows us to take a 4-inch EVA foam panel and compress it down to a 2-inch thickness. This process allows for a lighter and more comfortable race vest with maximum flotation.

# RACE BOOT

43

The original race boot from Jettride launched in 2011. Tested, tried and proven by riders worldwide for a decade. This is our 5th generation of boot - produced with continued research, development and improvements. We are obsessed with quality and perfection. Our history speaks for itself!

- Rubber soles are designed with three raised contact points to accommodate a PWC rider's aggressive stance.
- Extra high neoprene cut limits rocks and gravel from getting in.
- 9 mesh flow through panels allow water to drain quickly.
- 2 adjustable velcro straps and extra-strong marine grade zipper for a custom fit.
- Pre-curved sole with arch support allows maximum comfort.
- Sole wraps around the sides and toe, limiting the lateral "side-to-side" movement.
- Built with water tolerant materials and reinforced sewing to prevent breaking apart after hard use.
- Tough rubber toe protects toes on rocky beaches.
- Unisex boot, based on men's sizing.

With UV Protection, breathable and quick-drying, the Jettribe Rashguard is constructed with 20% Spandex and 80% polyester fabric, which provides lightweight, stretchy, and easy movement for riding PWC and other water activities. The comfort, fit, and design offer ultimate warmth and sunburn prevention for hours of PWC riding.

**FLAT LOCK STITCHING -**  
Flatlock stitching is an ideal stitching style for watercraft riding gear. The parallel stitching method is perfect for riding gear due to its strength and flexibility. Open to water penetration, the unique seam offers high performance and fast drying times, that complement the rashguard's light, breathable fabric. Count on flat-lock stitching to keep your long or short sleeved guard wearing great every day. The tight fit provides optimal staying power on even the roughest waters.

The Jettribe rashguard's fade-resistant coloring and design is made to enhance your time on the water. Make the most out of your next ride with this high performance and comfortable rashguard.

- UV Protection
- Sublimation Gas-Fusion Graphics (Soft to Touch, no skin irritation like silkscreen)
- 4-Way Stretch poly lycra
- Breathable and quick-drying
- 20% Spandex and 80% polyester fabric
- Lightweight, stretchy, and easy movement for riding PWC and other water activities
- Comfort fit and design offers ultimate warmth and sunburn prevention for hours of PWC riding

Flatlock stitching is an ideal stitching style for watercraft riding gear. The parallel stitching method is perfect for riding gear due to its strength and flexibility. Open to water penetration, the unique seam offers high performance and fast drying times, that complement the rashguard's light, breathable fabric. This ideal construction provides optimal staying power on even the roughest waters.

The Jettribe rashguard's fade-resistant coloring and design are made to enhance your time on the water. Make the most out of your next ride with this high performance and comfortable rashguard.

Sizing: Rashguards are a tight-fitting product. You may want to order a size larger if you prefer a looser fit.

#### Jettribe Rescue Board

The Jettribe Rescue Boards are rescue tow sled equipment designed to be towed by a PWC (Jet Ski) for fast rescue. They are lightweight and tough. The OLS® technology is patented in the USA and other countries. These high tech materials and construction are unique - there is no other like it in the world.

The internal aluminum honey comb stringer system (DAS) makes it much lighter than traditional rescue boards. This makes the sled fast and maneuverable. The tow-behind Jetski rescue sled is designed for use behind Personal Water Craft (PWC) to react quickly and arrive on time to a swimmer in trouble or a downed rider on a race course. Also, the towable rescue sled is the perfect equipment for tow-in surfing.

Worldwide professional associations rely on the Rescue Board as their vital rescue equipment such as Peruvian National Police, Surf Rescue Division, China closed Course PWC Racing, Yamaha of Thailand PWC Safety, and the USA IJSBA West Coast Closed Course Racing.

Size: 71" x 39" x 4.4" (180.34 x 99 x 11.18cm)

Weight: 23.1 lbs (10.48 kgs), Vol. 162 lts (613.24L)

Maximum In-water load: 520 lbs (235.87 kgs)

Special Programs for SAR, Military, IJSBA Affiliates, Coast Guards, and Training Camps

Experience matters. For over 25 years, Jettribe has been building quality OEM products for other high profile brands and companies. With this experience, we build our Jettribe PWC covers using fine-tuned craftsmanship, for more than two decades. Now featuring our fourth generation of PWC formulated proprietary protection material, Gen 4 covers continue to be used by Team Jettribe USA racers and professional racers to protect their skis while traveling throughout the United States and all over the world. Besides racers, watercraft enthusiasts rely on our Jettribe PWC covers to protect their skis while in storage, or trailering to their favorite riding spots. Jettribe covers have a history of quality and durability. Jettribe Premium covers offer the most water resistant, water repellant weather protection for your watercraft. Plus, our covers are specially built for trailering. Some cool features that set our PWC covers above the rest: We added four 1.5” webbing detachable tie downs, plus a “shock cord” bungee that surrounds the cover on the bottom leading edge. For weather resistance, our materials are specially UV coated wit the exclusive (CFM) material formulated only for Jettribe. It took us nearly two years to figure out the formulation! For water resistance, the materials are coated with three layers of clear PU or PVC backing to keep out the water. All of our seams are triple-stitched and finished off with binding. No exposed seams! The inside hood area is lined with soft nytex material to protect your PWC from getting scratched paint. All eye bow and pin areas are reinforced with a tough extra layer of nylon material. When fueling up, most of our covers have a gas flap opening. Talk is talk, but seeing is believing. Check our Jettribe covers at your local dealership. Jettribe Covers are of perfect fit, quality, finish, and a true work of art!

Gas flap opening on (most models).

No exposed seams. All panels are finished with Nylon binding and triple stitched with Nylon thread for unbeatable shear toughness!

Weather and Water Resistant Generation 4 Nylon with 3 layers of PVC coating underneath.

Fat, adjustable shock cords are sewn full-length on the watercraft along the hem.

For added strength, tie downs are sewn with “X” box over our tough PVC material.

Tough 2 inch tie downs 4 straps total: 2 on the sides & 2 in the rear ( Sit Downs) Stand ups: Only 1 on the side, 2 on the rear.

Our “Loop N Draw” System does not need any metal hooks.

PRODUCT LINE	SIZE	MATERIAL	STYLE	ITEM
POSTER	24"X16" (60cm x 40cm)	Thick Heavy Paper	#JTA 20360	Official Merchandise

New 25th Anniversary Features Include:

- Upgraded Black Lanyard Loop Attachment
- New Velcro Patch Strap Attachment
- Enhanced Customizable Back Plate
- 3-Point Strap Reinforcement

The new patch attachment lets you further customize the look of your vest. Add your country's flag or any cool patch design (patches sold separately). The updated customizable name plate stays secure with stronger velcro attachment points. Add customization for your Name and Race Number (sold separately).

The UR-20P Side-Entry Vest utilizes ink fusion technology, instead of traditional silkscreen ink. The ink fusion wraps and dyes the color around the yarn and fibers of the materials. This allows for a smooth, soft, feel to the vest. Plus, our foam second process is heat and pressure compression, which allows us to take a 4-inch EVA foam panel and compress it down to a 2-inch thickness. This process allows for a lighter and more comfortable race vest with maximum flotation.

## VEST FIT CHART

Size	Chest (in/cm)
XS	28" - 32" (71cm - 80cm)

Poper Family

Jeremy- "Always strive to improve"

Ryan- "Hard work pays off"

Bridget- "Sorry....Can't.... It's Race Weekend!"

We are extremely blessed and thankful to be a part of the Jettribe Family. We are living the dream together surrounded by family, friends, community, mentors, and motivators. A big thanks to Jettribe for being there for us both in and out of the water.

Major Accomplishments:

Jeremy-

5 time World Champion  
Multiple Nauti Water Pro Ski Championships  
2019 Pro Watercross Vet National Champion  
2019 World Finals- Vet Ski Stock 2nd Place  
2020 World Finals- Vet Ski GP World Champion  
2020 World Finals- Expert Ski Modified 5th Place  
2020 World Finals- Pro Ski Modified 9th Place

Ryan-

2019 Nauti Water 10-12 Lites Champion  
2019 4th Place Pro Watercross Nationals  
2019 World Finals Junior Ski Lites 10-12 6th Place  
2020 RPM Racing Nationals 2nd Place  
2020 World Finals Junior Ski Lites 10-12 4th Place  
2020 World Finals Junior Ski Stock 10-12 2nd Place

Bridget-

Women's Novice Ski World Champion  
APBA Women's Pro Ski National Champion  
Multiple Women's Pro Ski Champion in Nauti Water Racing Series  
2019 Pro Watercross Womens Ski National Champion  
2020 RPM Best of the West Women's Ski Stock Champion  
2020 RPM Racing National Championships 2nd place  
2020 World Finals- Vet Ski Stock 7th Place  
2020 World Finals- Women's Pro Ski 7th Place

Ryan Poper (Junior Racer)  
Pre race, World Finals  
Lake Havasu, Arizona 2020

Casey Leech - Being a part of the Jettribe race family provides me with the opportunity of not only wearing the most advance tried and tested race-ready jetski gear, but also helps me to live a dream that has always been very close to my heart with my aim to win. The support and encouragement received from the Jettribe family helps me to be the best I can be, to help me reach my goal. Each race meeting attended in both my home country and overseas enables me to promote the Jettribe brand both on and off the water. I'm very proud and honoured to be a sponsored rider and I will continue to promote the brand with the support provided from the Jettribe family.

Wyland Reden - 2020 Vintage Ski World Champion. I came aboard Jettribe in March 2018. In the short period of time I've had lifetime of opportunities. I've traveled to Hungary to meet the famous racer Gyorgy Kasza. There I got to train and race with his newly built ski. At the age of 14 years I was competing in open GP1 with guys twice my age. In 2019 I had the opportunity to race in Thailand at the World Cup. The event was a grand scale I had never seen before. Team Freedom Motorsports Thailand provided us with the greatest pits ever and a ski to race. Definitely next level racing. After 5 consecutive years I was able to pull off my 1st World Title. Some have said this was the most competitive 550 class they've seen since 1992.

Jettribe is the most recognized and well respected company in all of the jetski world. They are constantly improving the safety of the sport. The safety gear, wetsuits & apparel is superb! I am super honored and it's a privilege to be part of the Jettribe family.

Luke Thomson - UK Rider, Podium finish JSRA 2020 Super Cup Championships. I am always proud to be a Jettribe Brand Ambassador and wear Jettribe gear. I am very fortunate to represent them on the water. I always try to promote them as much as possible wherever I am and wherever I go and feel very proud to do so.

I have been watercraft racing for 25 years. My first race was at a local winter series in Lake Havasu where I won my first race in Novice Women's Runabout on my 650 XP...I was hooked on runabout racing. While raising a family and teaching full-time, I won my first World Championship in 1999 in Novice Women's Runabout with **Jettribe USA** as one of my first sponsors. Since then, I have participated in 23 World Finals and 4 Mark Hahn events. Besides winning our class in the Mark Hahn 300 in 2016, the Women's World title has eluded me for the past 21 years. I had plenty of podium finishes, but not another number one...until 2020 where I finally achieved this goal again aboard my Yamaha FX and **Jettribe** was right there with me. I appreciate all the support Jettribe USA has given me since 1997 keeping me decked out in stylish gear on and off the race track. - **Renee Hill**

Aaron Cress was a kind-hearted, generous man and served as a beacon for many individuals. His dedication and passion for the watercraft industry enabled him to help countless riders and racers worldwide. 20 years within the industry Aaron led many individuals and race teams to countless championships. He was that catalyst that brought people together. Competitor or foe he was always willing to lend a helping hand. A truly genuine individual, you will be missed dearly my friend.

An employee of Factory Kawasaki, lead technician for PwcOffshore Racing, husband, father, and friend. The entire watercraft community mourns the loss of Aaron Cress. Gone but never forgotten.

Aaron Cress 1983-2020
